Resolution Honoring the Accomplishments of President Biden and Vice President Harris

WHEREAS, they created more than 16 million new jobs, improved our nation's infrastructure, and spearheaded clean energy advancements that will carry us into the future; and

WHEREAS, Vice President Harris cast the tie-breaking vote to pass the Inflation Reduction Act, which lowered the cost of prescription drugs, reduced energy costs, and marked the most significant action Congress has taken on clean energy and climate change in the nation's history; and

WHEREAS, President Biden signed the Bipartisan Infrastructure Law, our country's most significant infrastructure investment in decades, which contributed funding to rebuild roads and bridges, expand high-speed internet access, and combat the climate crisis; and

WHEREAS, he signed the CHIPS and Science Act into law, which revitalized domestic manufacturing, created good-paying American jobs, and strengthened American supply chains, helping accelerate the industries of the future; and

WHEREAS, the Biden-Harris administration championed our nation's veterans by signing the PACT Act into law and ensuring those exposed to toxic burn pits get the health care benefits they deserve; and

WHEREAS, President Biden and Vice President Harris enacted the first meaningful action on gun violence in 30 years; and

WHEREAS, as the most pro-union president in our nation's history, President Biden protected millions of union workers' pensions, strengthened workers' right to organize, and proudly stood on the picket line with the United Auto Workers — the first sitting president to ever do so; and

WHEREAS, Democrats will stand strong to defend and protect the progress made under the Biden-Harris administration and combat Donald Trump's extreme Project 2025 agenda that threatens to roll back these accomplishments; and

WHEREAS, President Biden and Vice President Harris led our country with hope, dignity, and kindness, strengthening our democracy and representing the American people proudly on the world stage; and

WHEREAS, during their four years in the White House, President Biden and Vice President Harris made historic progress and delivered results for American families, from historic job growth to lowered costs on gas, prescription drugs, and more;

THEREFORE, BE IT RESOLVED, Democrats nationwide are prepared to counter Republican attacks on the American people and prevent Donald Trump from winding back these historic achievements, raising costs on families, and padding the pockets of the ultra-wealthy at the expense of working people; and

BE IT FURTHER RESOLVED, that the Democratic National Committee express our gratitude for President Biden and Vice President Harris' achievements and dedication to the American people throughout their term in office.

The following Resolution was considered by the Resolutions Committee at its meeting on January 30, 2025, and is recommended for adoption by the full Democratic National Committee at its meeting on January 31, 2025.

Resolution Condemning Trump's Billionaire Cabinet

WHEREAS, Donald Trump's Cabinet is the wealthiest in American history, stacked with out-of-touch, special-interest billionaires who are only looking out for themselves and their balance sheets over working families; and

WHEREAS, Trump filled key positions in his administration with billionaire loyalists — from the Treasury Department and the so-called Department of Government Efficiency to the Department of Education; and

WHEREAS, his administration includes more billionaires than any other in American history, with a combined net worth that exceeds the GDP of 172 different countries.

WHEREAS, through price hikes and tax handouts to the ultra-rich and large corporations, Trump's administration will serve the ultra-wealthy and abandon hardworking Americans; and

WHEREAS, as the American people grapple with the transfer of power from the most pro-worker administration in American history to the most pro-billionaire administration, it's painfully clear that Americans voted for Trump on false economic promises that he's already walking back; and

WHEREAS, Republicans on the Hill are too focused on stuffing the coffers of Trump's mega-donors and ultra-rich Cabinet secretaries to think about the checkbooks of working families across the country; and

WHEREAS, as Trump's billionaire Cabinet tries to advance his extreme Project 2025 agenda, Democrats will hold them accountable for their lies; and

WHEREAS, the American people deserve leaders who will look out for them and their wallets – not Trump's crony capitalism that caters to his billionaire buddies and special interest donors;

THEREFORE, BE IT RESOLVED, that the Democratic National Committee condemns Trump's billionaire-stacked Cabinet and their extreme agenda, and hereby promises to defend hardworking families, fight to lower costs, and push back against extreme Republicans doing the bidding of the ultra-wealthy and large corporations.

WHEREAS, faith in the judicial system requires that jurists be qualified and conduct themselves by the highest ethical standards, and is substantially bolstered when the Judiciary looks like the communities that it serves;

Resolution Calling for Reform of the Supreme Court of the United States to Address Ethical Crisis Detailed in the Senate Judiciary Committee Investigative Report

WHEREAS, the Democratic Party has traditionally been, and is, committed to the rule of law and to holding government officials accountable for their actions;

WHEREAS, after a 20-month investigation, the U.S. Senate Committee on the Judiciary, chaired by then-U.S. Senate Majority Whip Dick Durbin, found a consistent stream of ethical lapses by U.S. Supreme Court Justices and repeated failures by the Justices – under the leadership of Chief Justice John Roberts – to in any way address the Court’s ethical challenges;

WHEREAS, the Supreme Court of the United States is facing an ethical crisis of its own making which is causing it to lose the trust of the American people, which, in turn, erodes support for the rule of law;

WHEREAS, the highest Court in the land cannot have the lowest ethical standards and the Court has hidden its head in the sand rather than addressing either (1) the failure of Justices, such as Associate Justices Clarence Thomas and Samuel Alito, to disclose lavish gifts from billionaires and others with business before the Court or (2) the failure of Justices to recuse themselves from cases where they have an apparent conflict of interest;

WHEREAS, the ethical lapses uncovered by the Senate Judiciary Committee include: Justice Thomas accepting 258 lavish personal trips, dozens of which were not disclosed; Justice Thomas failing to disclose these and other lavish gifts in violation of federal law; Justice Alito misusing the “personal hospitality exemption” to hide gifts of luxury transportation and lodging in a

2008 Alaska fishing trip; the display of two well-established “Stop the Steal” symbols at the Alitos’ properties while Justice Alito actively participated in cases about the 2020 election; and Ginni Thomas, Justice Thomas’ wife, paid for efforts involving the “Stop the Steal” movement and other right-wing causes, which created a clear conflict of interest for Justice Thomas under applicable law;

WHEREAS, the Senate Judiciary Committee report recommends that Congress address these concerns by, among other steps, establishing an enforceable Code of Conduct for Supreme Court Justices and a mechanism for meaningful enforcement thereof, and, more specifically:

- “Congress must establish an enforceable code of conduct due to the Court’s abdication of its ethical responsibilities to do so.
- The Judicial Conference must be reformed and its internal operations improved, requiring action by Congress as well as internal changes by the Judicial Conference and the Administrative Office of the U.S. Courts.
- Further investigation – ideally with the cooperation of the justices – is needed to understand how the justices allowed these ethical lapses to occur and how to effectively address these failures going forward.”

THEREFORE, BE IT RESOLVED that the Democratic National Committee dedicates itself to the rule of law and to holding government officials accountable for their actions by supporting the recommendations of the Senate Judiciary Committee on reforms to the Supreme Court of the United States, the Judicial Conference and the Administrative Office of the Courts to address this ethical crisis; and

BE IT FURTHER RESOLVED that the DNC will advocate for these and other reforms to the Supreme Court of the United States that are aimed at improving the public’s perception of the Court as an institution worthy of respect and trust.

WHEREAS, the United States Constitution that was ratified in 1788 provided the right to vote for representation in Congress to the “People of the several States” of the United States, which included citizens living on the land that would later be designated by the federal government for the nation’s capital as ceded by Maryland and Virginia to become the District of Columbia; however, through the enactment of the “District of Columbia Organic Act of 1801” D.C. residents were disenfranchised from voting for representative Members of Congress more than 200 years ago; and

WHEREAS, the residents of the District of Columbia and Puerto Rico lack full democracy, equality, and citizenship enjoyed by the residents of the 50 states; and

WHEREAS, the 2020 Democratic Party platform endorsed a guarantee of self-determination for the people of Puerto Rico, and Joe Biden announced during a 2020 campaign event that he believes “statehood to be the most effective means of ensuring that residents of Puerto Rico are treated equally”; and

WHEREAS, the 2024 Democratic Platform acknowledged Puerto Ricans rejection of its current territorial status by stating that “Democrats recognize that the people of Puerto Rico have earned and deserve to resolve the political status question.
